

On Saturday 9th March, a lady we support, Lorraine, completed her 50th park run at Eastville Park. She was very proud of herself, rightly so, but so was everyone around her because of this massive achievement. Staff and service users from her home attended to support her along with Heather, her previous Home Manager, and many friends who she has made along her park run journey – everyone was out celebrating her achievement with her.

Lorraine has completed park runs across the UK and Ireland, from Chipping Sodbury and Cwmbran all the way to Claremorris in Ireland.

Also, it turns out from the data park run provide, that Lorraine is the second highest wheelchair using attendee in the UK. Amazingly, the highest record holder is only 10 runs ahead of Lorraine at this moment in time.
