Staff are skilled at supporting people with communication, decision-making, fluctuating health needs and mobility issues, for which they have specialist equipment.

OUR VALUES

We start with the person. People we support are encouraged to take part in hobbies and activities that they personally enjoy.

We bring people close. Bath Road is a sociable house, with an open plan lounge/diner.

We take our creativity to work with us. Tools such as a pictorial meal planning file are used to support communication.

We are courageous in our approach. People we support are encouraged to make decisions about their own care and are involved in interviewing new staff.
