THE DIFFERENCE KILVIE HOUSE MAKES

Kilvie House provides a home and support to people with learning disabilities and complex health needs. The home supports people throughout and to the end of their life, with reassurance for families that no further move will be needed. We build support around each individual's preferences and interests, and we work with other professionals to help people to develop and retain their skills for as long as possible.

We bring people close. We foster close links with family members and involve them in decision-making.

We take our creativity to work with us. Each person's bedroom is decorated to reflect their tastes and personality.

We are courageous in our approach. Our staff take time to understand each person's way of communicating.
