OUR VALUES

We start with the person. People we support are encouraged to review their own progress, identifying their needs and achievements

We bring people close. One to one support is offered, as well as group support sessions.

We take our creativity to work with us. People are encouraged to pursue their interests. We have helped people take meditation classes, join choirs and find work.

We are courageous in our approach. Staff support people to develop their self-awareness and aspirations and focus on their strengths.
